JODELL D. DOÑOS

Backend Developer

Cebu City, Philippines | +63 977 387 9813 | jodell272@gmail.com | GitHub: github.com/SAIZUMIN/

PROFESSIONAL SUMMARY

Information Technology student (expected graduation 2027) with hands-on experience building full-stack web applications and IoT-based automation systems. Proficient in React, TypeScript, Python, and embedded systems development. Demonstrated ability to deliver end-to-end solutions—from hardware integration and cloud API configuration to responsive front-end interfaces. Seeking junior Backend or full stack developer roles where clean architecture and user-centered design drive impact.

EDUCATION

Bachelor of Science in Information Technology 2023 – 2027 (Expected)

Cebu Technological University – Argao Campus, Cebu City, Philippines

Relevant Coursework: Web Development, Object-Oriented Programming, Database Management, Computer Networking, Data Analytics

PROFESSIONAL EXPERIENCE

IT Developer — Project-Based Experience April 2025 – Present

- Developed and delivered responsive web applications using **React, TypeScript, JavaScript, HTML, and Vite**, producing clean, mobile-friendly interfaces that improved usability and accessibility.
- Implemented new software features, performed thorough testing and debugging against system requirements, and iteratively refined functionality to increase reliability and reduce defects.
- Collaborated effectively with team members using **Git** for version control and applied networking and programming skills to complete project deliverables on schedule.

PROJECTS

EnerSave: IoT Smart Energy Management System — ESP8266, SinricPro, ThingSpeak 2025

Motion-activated smart lighting with voice control and live analytics.

Python Projects Portfolio: Python, OOP, File Handling 2025–Present

applications covering banking, inventory, and data management; applied OOP, file I/O, and error handling.
github.com/SAIZUMIN/python-projects

AI RAG-Powered Knowledge System: React, TypeScript, Python, Vite 2025–Present

RAG system with React front end for document retrieval and context-aware AI responses.

CERTIFICATION

National Certificate II (NC II) — TESDA (Technical Education and Skills Development Authority)

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript, HTML5, CSS3, Vite
Backend & Scripting: Python, Node.js (Basic), REST APIs
IoT & Embedded: ESP8266 (NodeMCU), Arduino IDE, PIR sensor integration, relay control
Cloud & APIs: SinricPro, ThingSpeak, WebSocket communication
Data & AI: Retrieval-Augmented Generation (RAG), data processing, analytics
Tools & Practices: Git, version control, software testing, debugging, Agile collaboration
