

JODELL D. DOÑOS

Backend Developer & Frontend Developer

Cebu City, Philippines | +63 977 387 9813 | jodell272@gmail.com | GitHub: github.com/SAIZUMIN/

PROFESSIONAL SUMMARY

Information Technology student (expected graduation 2027) with hands-on experience building responsive web applications and AI-powered Retrieval-Augmented Generation (RAG) systems. Proficient in React, TypeScript, Python, and modern front-end tooling. Experienced in the full development lifecycle — from requirements analysis and feature implementation to testing, debugging, and collaborative delivery using Git. Eager to contribute to junior web or software developer roles focused on clean, user-centered solutions.

EDUCATION

Bachelor of Science in Information Technology

2023 – 2027 (Expected)

Cebu Technological University – Argao Campus, Cebu City, Philippines

Relevant Coursework: Web Development, Programming, Database Management, Networking, Data Analytics,

PROFESSIONAL EXPERIENCE

IT Developer — Project-Based Experience

April 2025 – Present

- Developed and delivered responsive web applications using **React, TypeScript, JavaScript, HTML, and Vite**, producing clean, mobile-friendly interfaces that improved usability and accessibility.
- Implemented new software features, performed thorough testing and debugging against system requirements, and iteratively refined functionality to increase reliability and reduce defects.
- Collaborated effectively with team members using **Git** for version control and applied networking and programming skills to complete project deliverables on schedule.

PROJECTS

AI RAG-Powered System | React, TypeScript, Python, JavaScript, Vite, Git 2025 – Present

- Architected and developed an AI-powered **Retrieval-Augmented Generation (RAG)** system that retrieves relevant knowledge-base documents and generates accurate, context-aware responses.
- Built interactive, responsive front-end components and user interfaces with **React + TypeScript + Vite**, focusing on clean design, performance, and seamless user experience.
- Designed, tested, and integrated end-to-end retrieval and AI response workflows, significantly improving answer relevance, system usability, and overall reliability of the application.

CERTIFICATION

National Certificate II (NC II) — TESDA (Technical Education and Skills Development Authority)

TECHNICAL SKILLS

Web Development: React, TypeScript, JavaScript, HTML, CSS, Vite

Programming: Python, Java, C++ (Basic)

AI & Data: Retrieval-Augmented Generation (RAG), AI Applications, Data Analytics, Data Processing

Tools & Practices: Git, Version Control, Software Testing, Debugging, System Analysis, Requirements Analysis, Technical Documentation

Networking: Computer Networking, Network Troubleshooting, Network Configuration
